

3M™ LEAP™ III Finish Blocking Pads

SOLD BY

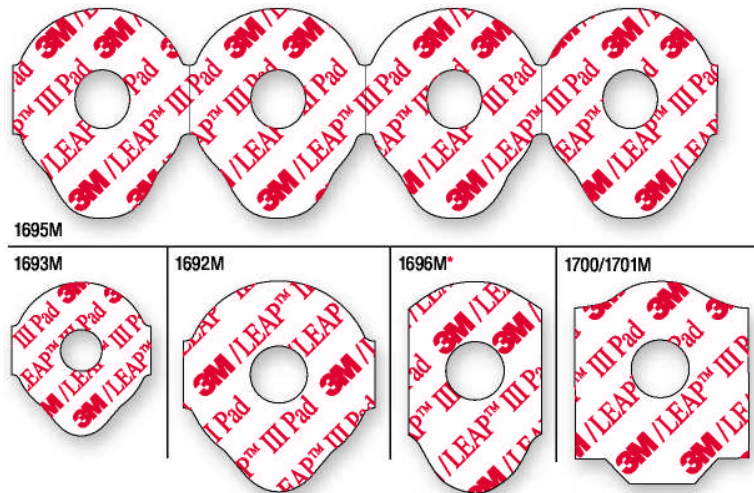

The industry's #1 edging pad

For years 3M LEAP pads have been recognized by optical labs worldwide as the benchmark for quality lens edging pads. We've just raised the standard of excellence to new heights with LEAP III finish blocking pads.

These pads offer the industry's best slip resistance, keeping lenses firmly in place during edging. So there are fewer errors and less waste, which means improved productivity, faster turnaround times and better lab efficiency.

LEAP III pads are available in a variety of shapes and sizes, and offer superior adhesion to a variety of lens types.

LEAP III pads improve on the high level of performance you've come to expect from 3M.

Superior torque (slip) resistance

Arguably the most critical feature of a blocking pad; maximises edging performance.

Excellent adhesion

Keeps lenses firmly in place during edging; helps reduce errors and waste.

Double tabs

Now featured on all pad styles for easier removal and scratch prevention.

Low-profile, high-performance pad

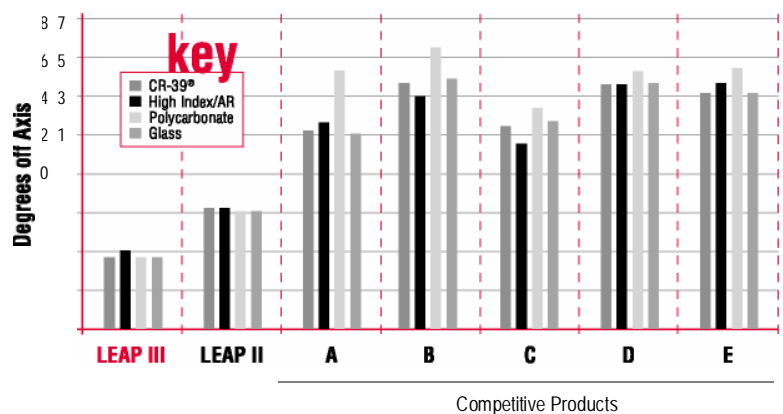

Thinner, lightweight design.

Printed liner

Featured on all pads for easy brand identification.

Torque Resistance (Slippage)

3M™ LEAP™ III Finish Blocking Pads have significantly less slippage than their predecessor and five other brands of blocking pads.

* Tested using a simulated chucking procedure that detects any hint of movement under torque pressure.

Ordering Information

Catalogue Number	Size	Pad Shape	Designed for	Pads Per Roll
1692M	26mm	Round	WECO flexible blocks	1,000
1693M	18mm	Round	Essilor GAMMA edgers	1,000
1695M	24mm	Round	generic use	2,000
1696M	18mm	Oval	small frames	1,000
1700M	24mm	Square	generic use	2,000
1701M	24mm	Square	generic use	1,000

3M LEAP pads are the only blocking pad system to have won the prestigious Award of Excellence voted by the U.S. Optical Laboratories Association membership.

Catalogue No	UK Price
1692M	£37.00
1693M	£36.00
1695M	£59.90
1696M	£36.00
1700M	£49.50
